Child Health Clinical Excellence performance indicators for period ending March 2021

Understanding Control Charts

The following control charts plot process data in a time-ordered sequence to identify common cause and special cause variation.

Expected Variation Region

The area between the lower and upper control limits (LCL and UCL), where the process is expected to perform. This is also know as <u>common cause variation</u> and refers to occurrences that contribute to the natural variation of any process.

• Unexpected Variation Region

The area beyond the control limits, also known as <u>special cause variation</u>. Special causes are unusual occurrences that are not normally (or intentionally) part of the process and create instability.

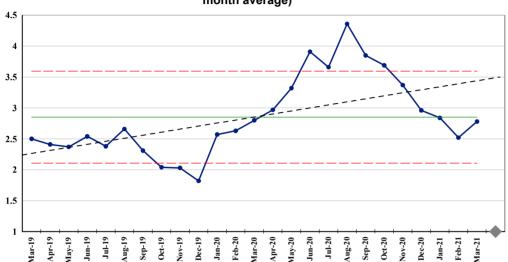

• Charts without average and control limit lines indicate:

Metric value has manual data entry of percentage or rate value rather than numerator and denominator values. Percentage and rate control charts require numerator and denominator values in order to calculate average and control limits.

Child Health Clinical Excellence performance indicators for period ending March 2021

Safety

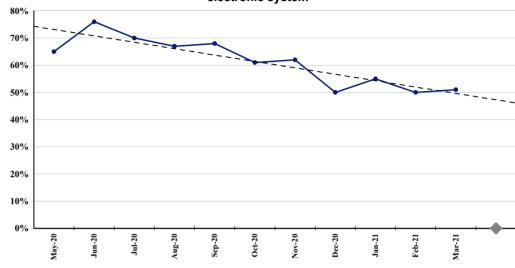

PR722. Central line associated bacteraemia rate per 1,000 central line days (rolling 6 month average)

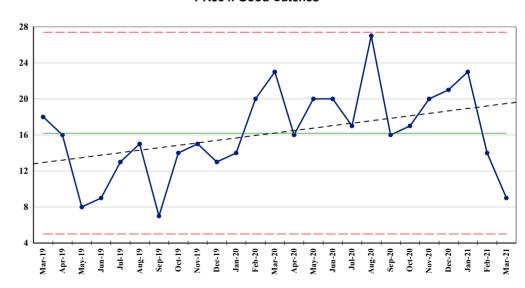

PR185. Nosocomial pressure injury point prevalence - 12 month average (% of in-patients)

PR808. % Reported medication/fluid incidents that would be prevented by an electronic system

PR334. Good Catches

98% 96%

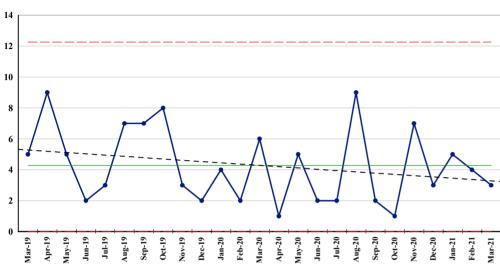

94%

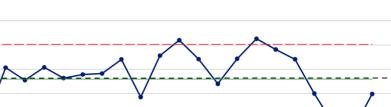

92%

88% 86% 84% 82%

Safety

PR335. Paediatric Code Blue Calls

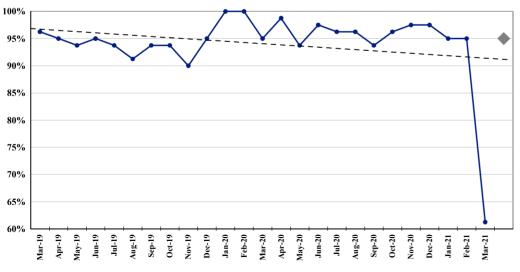

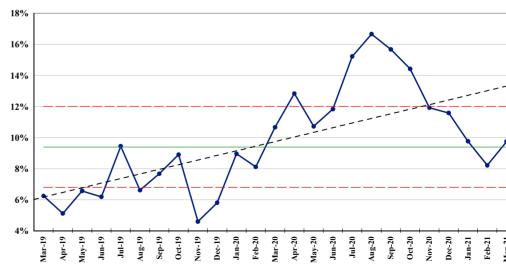

PR195. % Hand hygiene compliance

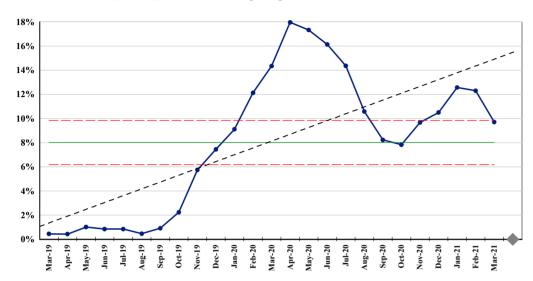

PR483. % Family Violence Screening compliance

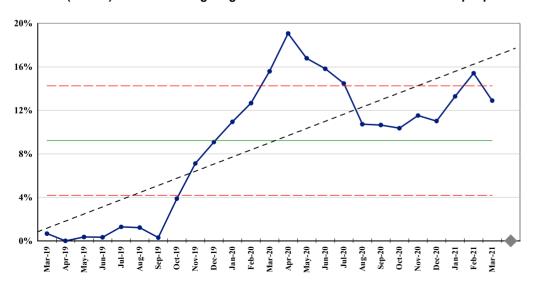

Child Health Clinical Excellence performance indicators for period ending March 2021

Timeliness

PR038. (ESPI-2) Patients waiting longer than 4 months for their FSA

PR812. (ESPI-2) Patients waiting longer than 4 months for their FSA - Pacific people

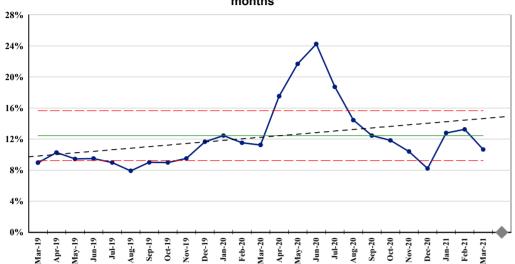

PR811. (ESPI-2) Patients waiting longer than 4 months for their FSA - Maori

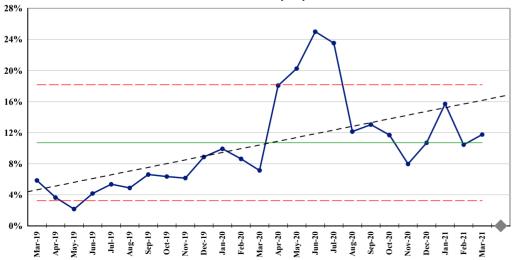

Child Health Clinical Excellence performance indicators for period ending March 2021

Timeliness

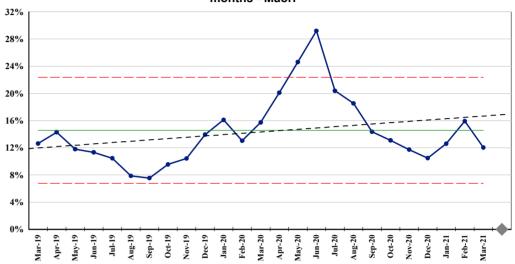

PR039. (ESPI-5) Patients given a commitment to treatment but not treated within 4 months

PR814. (ESPI-5) Patients given a commitment to treatment but not treated within 4 months - Pacific people

PR813. (ESPI-5) Patients given a commitment to treatment but not treated within 4 months - Maori

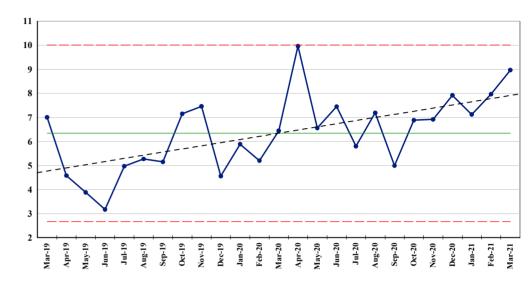

Child Health Clinical Excellence performance indicators for period ending March 2021

Timeliness

PR016. (MOH-01) % CED patients with ED stay < 6 hours

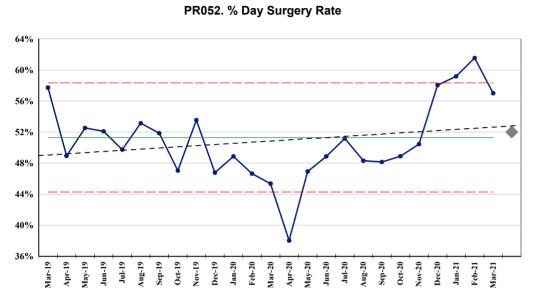

PR034. Median acute time to theatre (decimal hours) - Starship

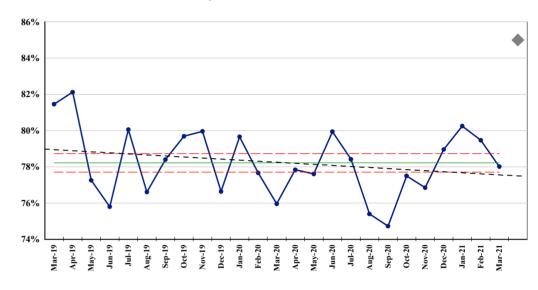

Child Health Clinical Excellence performance indicators for period ending March 2021

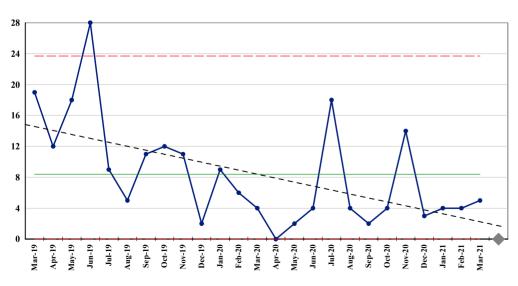

Efficiency

PR198. % Adjusted Session Theatre Utilisation

PR444. Average Occupancy

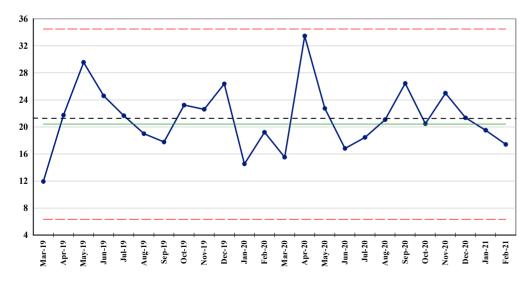

Child Health Clinical Excellence performance indicators for period ending March 2021

Efficiency

PR441. Laboratory cost per bed day (\$) - Child Health

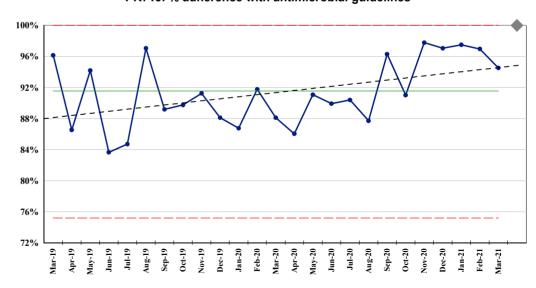

PR443. Antibiotic cost per bed day (\$) - Child Health

PR442. Radiology cost per bed day (\$) - Child Health

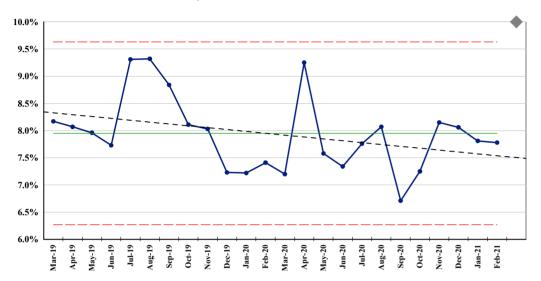

PR719. % adherence with antimicrobial guidelines

Child Health Clinical Excellence performance indicators for period ending March 2021

Effectiveness

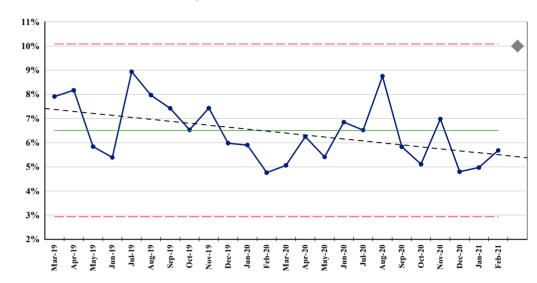

PR713. 28 Day Readmission Rate - all DHBs - Total

PR715. 28 Day Readmission Rate - all DHBs - Pacific

PR714. 28 Day Readmission Rate - all DHBs - Maori

Child Health Clinical Excellence performance indicators for period ending March 2021

Patient Centred

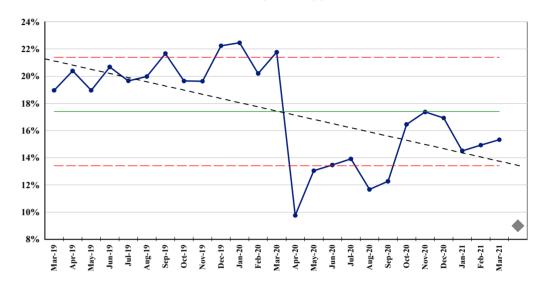

PR056. % WNB rate for outpatient appointments - All Ethnicities

PR058. % WNB rate for outpatient appointments - Pacific

PR057. % WNB rate for outpatient appointments - Maori

Child Health Clinical Excellence performance indicators for period ending March 2021

Patient Centred

PR154. % Very good and excellent ratings for overall inpatient experience

PR493. % Very good and excellent ratings for coordination of care after discharge

PR179. % Very good and excellent ratings for overall outpatient experience
