

Are you a **clinician** working with young children in NZ with or at risk of **Cerebral Palsy**?

Have you completed the nationwide clinician survey yet?

It will take less than **15 minutes**...but the information will help us understand & compare clinical practice across NZ around:

- Diagnosis/early detection
- Clinical pathways
- Barriers to service provision

Help us in our aim for **earlier & accurate detection** of cerebral palsy across NZ and improved health service provision.

Survey open:  
Nov 2018 -Jan 2019

Haven't received the survey?
