

hand sanitiser: **GOOD FOR HANDS, NOT FOR TUMMIES**

**A SMALL LICK OR TASTE ISN'T
GOING TO HURT A CHILD.
BUT DRINKING HAND SANITISER
CAN BE VERY HARMFUL.**

How you can keep your whānau safe:

- supervising children when they use hand sanitiser
- not letting children dispense or use the product by themselves
- storing out of reach and sight of children between uses. A locked cabinet above floor level is best for storage
- never removing hand sanitiser from its original packaging.

IN CASE OF POISONING CALL 0800 POISON (0800 764 766)
