Eczema Flare: Care Plan

<1 year of age

Bath

- Once a day. No soap or bubble bath.
- Use soap-free wash or moisturiser as a soap substitute.

Moisturiser

- Use every day, all over.
- Apply morning and night and with every nappy change.
- Apply when needed to soothe itch.
- Can be used instead of soap.

Your moisturiser is: (prescriber to circle)

Sorbolene (cetomacrogol glycerol)
Paraffin 50:50
Fatty cream
Non ionic
Other _____

Topical Steroid - Face

- Once a day to eczema that is red/darker and itchy.
- Do not use aristocort on eyelids.
- Use plain Vaseline for irritation around the mouth.

Your face steroid is: (prescriber to circle)

1% hydrocortisone
Aristocort

Topical Steroid - Body, arms and legs

- Once a day to ALL eczema that is rough, red/darker and itchy.
- You can mix half and half with moisturiser to help it spread over large areas.
- Don't use under the nappy unless told to by your doctor.

Your body steroid is: (prescriber to circle)

1% hydrocortisone
Aristocort
Advantan

Please use steroid on ✓ days (prescriber to circle start day)

	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday
Week 1	✓	✓	✓	✓	✓	✓	✓
Week 2	✓	✓	✓	✓	✓	✓	✓
Week 3		✓		✓		✓	
Week 4	✓		✓		✓		✓
Week 5 +						✓	✓
EITHER Use steroid to eczema as needed at the first sign of a flare OR if eczema patches flare often, use steroid as a preventer 2 days a week (Sat & Sunday)							

See your prescriber for review in 3-4 weeks to make a long term management plan
