Eczema Flare: Care Plan

≥5 years of age

Bath

- Once a day. No soap or bubble bath.
- Use soap-free wash or moisturiser as a soap substitute.

Moisturiser

- Use every day, all over.
- Apply morning and night and at other times as often as you like.
- Apply when needed to soothe itch.
- Can be used instead of soap.

Your moisturiser is: (prescriber to circle)

Cetomacrogol glycerol (Sorbolene)

Paraffin 50:50

Fatty cream

Non ionic

Other _____

Topical Steroid - Face, neck, groin

- Once a day to eczema that is red/darker and itchy.
- Do not use aristocort on eyelids.
- If there is no eczema, just moisturise.

Your face steroid is: (prescriber to circle)

1% hydrocortisone

Aristocort

Topical Steroid - Body, arms and legs

- Once a day to ALL eczema that is rough, red/darker and itchy.
- You can mix half and half with moisturiser to help it spread over large areas.

Your body steroid is: (prescriber to circle)

Locoid

Elocon

Other _____

Please use steroid on _____ days (prescriber to circle start day)

	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday
Week 1	✓	✓	✓	✓	✓	✓	✓
Week 2	✓	✓	✓	✓	✓	✓	✓
Week 3		✓		✓		✓	
Week 4	✓		✓		✓		✓
Week 5 +						✓	✓
EITHER Use steroid to eczema as needed at the first sign of a flare OR if eczema patches flare often, use steroid as a preventer 2 days a week (Sat & Sunday)							

See your prescriber for review in 3-4 weeks to make a long term management plan
