

# Model for Paediatric Palliative Clinical Network

- collaborative & consultative
  - regional coordination of care with clinical support of local services = **link worker(s)**
    - nurse specialist & psychosocial worker supported by paediatrician(s) with interest
  - work in partnership with child & family, paediatric service & GP ± local adult hospice
- seamless care across hospital – community – home
- strong links with national specialist PPC service, disability sector, specialist chronic illness services & consumer groups
